amend the above-identified application without prejudice as follows.In the Claims:

Rewrite Claims 1, 4, 5, 8, as follows:

4/26/99
SUB
B1

1. (Amended) A digital camera for use with a printer having
predetermined process colors and printing process characteristics, said camera
comprising:
an imager to capture images;
an image processor with program memory for processing the captured
image to produce an initially-processed image; and
additional program memory for further processing the initially-processed
image to effect [one or more of the following: decompression, color space
transformation into color planes that coincide with the process colors of the
particular printer, re-sizing, rotation, and] compensation for the printing process
of the printer.
